ARTISTS IN METROPOLITAN AREAS - 1990

*The Federal agency
that supports the
visual, literary and
performing arts to
benefit all Americans*

According to 1990 Census occupational statistics recently released by the Bureau of the Census, Metropolitan Statistical Areas (Metros*) contained 1,473,197 artists, or 88.15% of the total U.S. artist population (1,671,278). The concentration of artists in metropolitan areas in 1990 was greater than that of the total U.S. civilian labor force. Of the 122,473,499 persons in the civilian labor force, 79.37% were located in metropolitan areas.

- The 30 Metros with the most artists accounted for fully 50% of the nation's artist population. (See Table 1.) The top six metropolitan areas in 1990 were New York (NY), Los Angeles/Long Beach (CA), Chicago (IL), Washington (DC, MD, VA), Philadelphia (PA, NJ), and Boston (MA). Together, these six areas contain almost 25% of the U.S. artist population. The top two metropolitan areas, New York (NY) and Los Angeles/Long Beach (CA), were together the home for over 14% of all U.S. artists, with 123,676 and 119,044 artist, respectively. Of the top six areas, only New York and Los Angeles have over 2% of their civilian labor force comprised of artists, with 2.97% and 2.66%, respectively.

- The concentration of artists in the civilian labor force of a metropolitan area gives some indication of the importance of artists in the area's economy. The average proportion of artists in all metroplitan areas was 1.52% in 1990, compared with 1.36% for the entire U.S. (See Table 2.) The ten leading areas in terms of artist concentration were: Sante Fe, NM (3.38%); Norwalk, CT (3.33%); New York, NY (2.97%); San Fransisco, CA (2.92%); Stamford, CT (2.73%); Los Angeles, CA (2.66%); Boulder/Longmont, CO (2.44%); Sarasota, FL (2.24%); Santa Cruz, CA (2.22%); and Santa Barbara/Santa Maria/Lompoc, CA (2.12%).

- New York had the highest number of artists in eight of the 11 artist occupation categories, including: Architects (10,200); Authors (11,549); Dancers (2,214); Designers (37,411), Musicians/Composers (11,666); Painters/Sculptors, et. al (15,058); Photographers (9,240); and Teachers of arts (817). Los Angeles lead in the remaining three artist categories: Actors/Directors (24,048); Announcers (1,660); and Other artists (7,838).

*Metros include both Metropolitan Statistical Areas (MSAs) and Primary Metropolitan Statistical Areas (PMSAs) as designated by the Bureau of the Census.

¹ The labor force is the same as that presented in the Equal Employment Opportunity data file released by the Census Bureau. The 1990 census total for the experienced civilian labor force is 123,044,450. The labor force in the Equal Employment File is 122,473,499, which represents all the persons assigned an occupation code.
